DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 29-45, and 52-64 drawn to timepiece with band of plurality of links.

Group 2, claim(s) 47-51, drawn to timepiece comprising a protective feature.

The inventions listed as Groups 1 and 2 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: it is well known that bands with a plurality of links joined by springbars are used as watchbands, see for example EP 1048240 or previously cited Kikuchi.

A telephone call was made to Byron Kuzara on 4/14/2005 but Mr. Kuzara prefers to have written actions for applicant's review.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
